

The Geodesic Dome

Choosing a dome over a traditional structure has many unique advantages. A dome is architecturally stronger because of its unique weight distribution which allows for long open space plans. Our domes offer an artisan approach to creating stunning multi-use structures.

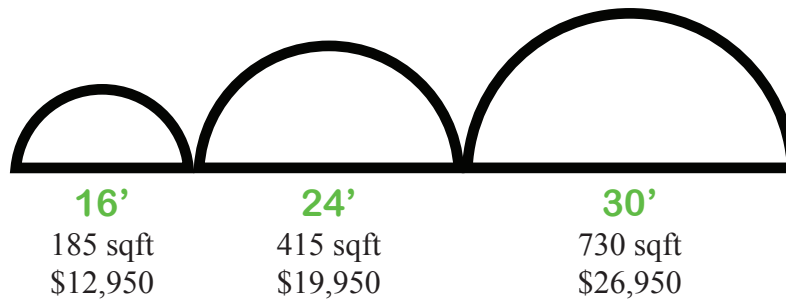

Where to Market

Greenhouses, Hot Tub Enclosure, Temporary Events, Small Dwelling, Disaster Relief, Concession Stand, Storage Space, Outdoor Recreations.

The Standard Dome Package

1. 60 powder coated aluminum triangles with 8mm polycarbonate plastic installed in each triangle.
